Hi All,

Please see the email I sent to the Code Officer in town. Your input to the Code Office to pass along to the Planning Board will be appreciated.

Sincerely,
Ken Foley
NextGen

Please Note: If your email is not returned within 24 business hours Monday to Friday, please use this other method to communicate with me by calling 888 356-3984. I may not always have convenient access to email. This should help. Enjoy the day.

Subject: Bay Village Road Association: Dollar General

Dear Town Code Officer,

I and another owner at Bay Village spoke with the engineer for the Dollar Store to be constructed next door and it was noted that the parking lot was to be built on the other side of the building away from Bay Village Road until the town asked them to consider it to be on the Bay Village Road side of the building.

Please note that the owners are asking that this not be the case. The sound of doors opening and closing all day, shopping carriages squeaking and rolling on pavement, car brakes and engines, dogs in cars barking, trash from cars and stores blowing around does not seem to make good neighborly sense. Please let the owners at Bay Village know when the next opportunity to speak on this matter is possible. Please forward to the Planning Board. Thank you for your assistance.

Sincerely,

Ken Foley
