RE: Upcoming Ordinance Projects

Date: April 11, 2024

North Star Planning (NSP) staff attended a meeting with Naples town staff in early January 2024 to discuss current and upcoming ordinance review/modification work leading up to town meeting in spring 2025.

The following ordinance projects were identified for the upcoming fiscal year:

- Boat Storage Facilities Performance Standards
 - Draft new standards in Section 600 of the Land Use Ordinance for Boat Storage Facilities for review by the Ordinance Review Committee (ORC). Properties located directly along Route 302 should have different standards than properties not directly located along Route 302.
 - Draft a new definition for Boat Storage Facilities.
- Distressed Properties Ordinance
 - Draft a new Distressed Properties Ordinance for review by the ORC.
- Food Sovereignty Ordinance
 - Review the existing Food Sovereignty Ordinance and suggest modifications based on feedback from town staff and the ORC members.

NSP staff does have capacity to work on ordinance modification projects in addition to the projects noted above during the upcoming year if requested by town staff and the ORC.
