Subject: Roof rebuilding project in Naples

Message: Hi Nick,

We were introduced several years ago by Mike Curran from Curran Drafting & Design. At that time I was working with Mike on a house renovation project at my property in Naples on Long Lake. I have started the project and currently am in a situation where I need the current roof to be torn down and a new roof re-built. Mike is still involved. Please let me know if you would be interested in talking about my project. Appreciate a reply.
