Subject: 24-1 Roosevelt Trail

To whom it may concern,

I have reviewed the site plan that was presented to the fire dept. by J.P.S. for a proposed commercial property at 24-1 Roosevelt Trail. Fire & Rescue should have no problem getting access to the site in case of fire or medical emergency. Year round maintenance including snow removal will need to be in place. From the limited plan I received both buildings will need to have an approved fully addressable and monitored alarm system. The property will also need to have a Knox Box installed for Fire Dept. access to those buildings. If gas is used in the building for heating or equipment gas detection will need to be included in the alarm system.

Please contact me with any questions.

Respectfully submitted,

Chief Cox
